Supun Praneeth

Full-stack developer

sp

Summery

I enjoy turning complex problems into simple and beautiful codes. I started coding 10 years ago when I was in school and I have 4 years of professional experience in creating web based projects in multiple industries such as leisure, education, travel etc. I am eager to learn new technologies and currently learning NodeJs(Express, Meteor, Sail.Js) and Python. I am also a big fan of open-source development and looking forward to work on open source projects.
